JUNIOR PRIMARY DEPARTMENT.

The Principals, recognizing the great advantage to hitle children of being trained under their supervision for the various classes of the Primary Department, have organized such a preparatory school. It will be put in the bands of a lady of long and successful experience in teaching little entidren; and, though in the same building, will be so far detached that the children need not come in contact with the rest of the school; nor will they be confined more than three and a half or four hours per day. Children thus trained from the beginning in our methods of instruction will have very great advantages—receiving, as they will do, the closest personal attention both from their instructor and from the Principal, and at the same charge that the primary schools make—viz. \$35 per session.
